

Your Personal Data and Your Privacy

Havebury believes in being open and transparent with everyone about how we process your personal data, so we have produced this notice to tell you:

- How we store your personal and sensitive personal information,
- What we use your personal information for,
- What information we may collect about you,
- Who (if anyone) we pass it on to and how they use it,
- Your rights and how to use them.

As your landlord, we will tell you how we use your personal data and we promise to use it only in connection with your **shared ownership tenancy**, **keeping people safe** and **monitoring** purposes. We will always make sure that we collect and store your personal data securely.

Shared ownership tenancy

We must collect and keep a little data about you, such as your name, address and date of birth to identify you as a shared owner in one of our homes.

We may also collect contact information such as telephone numbers and email addresses. We use this data to contact you and to help identify you when you call us or email us.

We may also collect data about any needs you may have. We use this data to help provide a better service that takes your needs into consideration.

During the first year of living in your shared ownership property, we will share some basic personal data with the builder. This will allow them to contact you regarding your property and help you when you have issues. It may also be necessary to share your personal data under strict conditions of confidentiality with our auditors and we may be compelled to share personal data with organisations that have a legitimate right to it.

In rare cases and when necessary to do so, we may share your data with a Court to secure possession of a property, your mortgage provider and/or specialist debt collection organisations to recover monies owed.

Keeping people safe

If you live in a flat within a block, we conduct Fire Risk Assessments for your safety and those of others living in the block. These assessments include identifying persons who may have difficulty to evacuate in the event of a fire. Factors such as age and health are important and so we record information about your date of birth and any needs you may have, including mobility problems. This is shared with the Fire Service and other relevant authorities in the event of a fire.

Monitoring

For all phone calls, we process the timing and duration, external number (or caller ID number), the internal extension numbers and names of employees who are logged into those extensions. This may be used to provide management data for business decisions on resourcing, analyse costs and charges for telecoms and to respond to complaints.

Calls to and from Havebury may be recorded. We will listen to recordings when we wish to understand what was said during a conversation, to respond to complaints and to train our employees.

And now, in a bit more detail...
